

ARGUMENT IN FAVOR OF MEASURE G

Measure G will make Lodi safer by providing funding for paramedics on our fire engines and for two fire stations. In addition, Measure G will provide the funds for a new swimming complex and for Lodi's first and only indoor activities and sports center. Finally, Measure G is projected to have over \$6 million to maintain and operate these services after they are built. This will save you money.

Why do we need these things?

- Today, Lodi's fire engines arrive at medical emergencies without paramedics. With Measure G, our fire engines will arrive with firefighters that are trained and equipped to provide paramedic services. This can save your life!
- Lodi does not have the funds for a required 5th fire station in the southeast portion of Lodi. Measure G will provide those funds. This will improve fire and medical coverage service throughout Lodi.
- Lodi has only one swimming complex at Blakely Park. The swimming complex will be built on the Westside of town.
- Lodi does not own any covered activities and sports space. The indoor center, serving all ages, will give our kids more opportunities and activities thus keeping them off the street. If done right, this will save the Grape Bowl!

Why do this with Measure G?

- Because our City cannot get these things done and we need them.
- Everyone that comes to Lodi will contribute, not just those that live here.
- The oversight committee will control the money so it is not wasted.
- THIS MONEY IS YOUR MONEY AND IT CAN ONLY BE SPENT ON THE PROJECTS LISTED IN MEASURE G! NOTHING ELSE.

Measure G is supported by the Lodi Chamber of Commerce and the Lodi Professional Firefighters.

MEASURE G IS GOOD FOR LODI!
